

# RESORT READY AT WINDMONT LAKE

First Attraction to Appear at  
Wethersfield Park in About  
Ten Days.

GROUNDS ENCLOSED  
BY HIGH BOARD FENCE

Large Electric Lighted Arch-  
way to be Constructed at  
the Entrance.

"We sincerely hope that we will be in position to open Windmont park not later than Sunday, July first". This is a statement from Mr. Newman manager of the Bijou theatre who will have charge of the park this summer.

#### Makes Explanation.

Mr. Newman stated that he was sorry that he could not have the grounds in readiness sooner than July 1st, but one obstacle after another has presented itself and even to have the opening the first day of July it would mean that no time could be lost. The large pavilion that has been at Terminal park and is to be moved to Windmont park is now on the way. It was thought at first that it could be moved without much difficulty but after the building had been jacked up it was evident that it would have to be cut in two. One half of the building is only a short distance from the park and the other part will follow immediately.

#### Free Vaudeville.

When this building is in place a stage will be built and from this free vaudeville attractions will be given in the afternoon and evening. A ten foot walk will be built around the building and this will be used as a promenade. A band stand will be erected and from this the band will give concerts several evenings each week. A dance platform will also be built. When finished the grounds will contain arcades, swings, a figure eight, and many other concessions seen in the big parks in the city, although these will be on a smaller scale this year at least.

#### Fence Being Built.

To protect the owners a large fence is being constructed around the park and it will entirely enclose the grounds. At the northeast corner or near the power plant the main entrance gate will be located. Over this will be built a large arch, plans have already been drawn for it, and it will contain many electric lights with the words, "Windmont Park."

#### Mr. Newman Owner.

Mr. Newman is to be the sole manager of the park and while in Chicago a couple of weeks ago booked several good attractions. He has had to cancel several of these on account of the slowness of getting the place ready but hopes to get others equally as good when he makes another visit to the city.
